RHYTHM OF STYLE

WWW.FIBREFASHION.COM

CEO'S MESSAGE

We are pleased to inform you that Fibre Fashion is a promising sourcing house in Bangladesh. We have strong merchandising and quality team to run everything from sampling to shipment. We specialize in any kind of knit, woven and sweater, because we have our own 100% export-oriented factory, especially knit and sweater.

We also supply woven items such as Denim, Twill, Fake Down, Padding Jackets, Headwear (Caps), Leather, Jute and Handicrafts from the sourcing factory. As a result, we are able to support fast sampling, full quality production, timely shipments as well as attractive prices.

We have been steadily doing business in this sector for decades. Our main markets are, USA, Canada, Finland, Spain & France respectively. We are already enhancing the market in Australia, Portugal, Netherlands & Russia as well. In addition, we want to more perform all over the world since our return of client values are well efficiency.

ABOUT US

Fibre Fashion. is dedicated and passionate about the design, production and manufacture of world class apparels and garments utilizing the latest trends, technologies and processes. In order to achieve our ambitious vision to become a world-class garment manufacturing corporation.

Fibre Fashion not only focuses on qualitative management and environmental control but also active maintenance of proper inter-relationship with our personnel and all the neighboring communities. Being under current global economic landscape characterized by volatility and recession, especially among our major export markets such as the United States and the European Union, cost reduction initiatives are an approach to maintain our competitiveness in an ever-changing global marketplace.

Concurrently, we aim to shorten our delivery period to even better respond to our customer needs. Our mission speech is “**RHYTHM OF STYLE**” which is a statement that explains a company's purpose and how it serves its customers. The statement is clear, concise and easy to understand. It can help a company focus its efforts and make decisions aligned with its goals.

QUALITY ASSURANCE

Quality assurance (QA) is a systematic process to ensure that a product or service meets the required standards and specifications. It involves putting in place procedures, processes, and activities to prevent errors, defects, or deviations from the desired outcome.

It is our mission to deliver buyer's require standard quality. We ensure the implementation of approvals in the pre-production phase. No garment escapes our very strict quality control process where we ensure the conformity of the production according to the approved technical file or last updated sample.
